Comprehensive School Safety Plan Purpose

The California Education Code (sections 32280-32288) outlines the requirements of all schools operating any kindergarten and any grades 1 to 12, inclusive, to write and develop a school safety plan relevant to the needs and resources of that particular school.

The historical requirement of the Comprehensive School Safety Plan (CSSP) was presented in Senate Bill 187. This legislation contained a sunset clause that stated that this legislation would remain in effect only until January 1, 2000. Senate Bill 334 was approved and chaptered in 1999 and perpetuated this legislation under the requirement of the initial legislation. In 2004, the Legislature and Governor recast and renumbered (SB719 & AB 115) the Comprehensive School Safety Plan to support California public schools as they develop their mandated comprehensive safety plans to include strategies aimed at the prevention of, and education about, potential incidents involving crime and violence on school campuses.

Effective January 1, 2019, Assembly Bill 1747 became law, requiring that the school site council or safety committee consult with a fire department and other first responder entities in addition to currently required entities. It requires the CSSP and any updates made to the plan to be shared with the law enforcement agency, the fire department, and the other first responder entities. This bill requires the CSSP to also include procedures for conducting tactical responses to criminal incidents. In January 1, 2019, AB 2291 became law. This bill requires local educational agencies (LEAs) to adopt, on or before December 31, 2019, procedures for preventing acts of bullying, including cyberbullying.

Comprehensive School Safety Plans are required under SB 719 & AB 115 and contain the following elements: Assessment of school crime committed on school campuses and at school-related functions; child abuse reporting procedures; disaster procedures; suspension and expulsion policies; procedures to notify teachers of dangerous pupils; discrimination and harassment policies; school-wide dress code policies; procedures for safe ingress and egress; policies enacted to maintain a safe and orderly environment; rules and procedures on school discipline and hate crime reporting procedures.

Districts and County Offices of Education are encouraged to include clear guidelines for the roles and responsibilities of the following positions (if used):

- Mental Health professionals, school counselors
- Community Intervention Professionals
- School Resource Offices, police officers on campus

The guidelines are encouraged to include strategies to create and maintain a positive school climate and mental health protocols for the care of students who have witnessed a violent act at any time.

The Comprehensive School Safety Plan may include procedures for responding to the release of a pesticide or other toxic substance from properties located within in-quarter mile of a school.

The Comprehensive School Safety Plan will be reviewed, updated, board approved and submitted to San Mateo County Office of Education by March 1st of every year. In July of every year, the school will report on the status of its school safety plan including a description of its key elements in the annual School Accountability Report Card (SARC).

A copy of the Comprehensive School Safety Plan – Public Component is made available for review at the District Office and on the District Website

- Office Referrals
- Attendance rates/School Attendance Review Board
- Suspension/Expulsion data
- California Health Kids Survey
- School Improvement Plan
- Local law enforcement juvenile crime data
- Property Damage data

Describe the data reviewed and key analysis points, and table of findings. Document how this information was shared with your SSC/planning committee and date shared:

Strategies and Programs to Provide and Maintain a High Level of Safety (EC 32281(a)1, items A-J)

Include in this section appropriate strategies and program that provide and maintain a high level of school safety and address the school's procedures for complying with existing laws related to school safety.

Student Threat Assessment Policy and Protocol

The San Mateo County Office of Education operates the San Mateo County Student Threat Assessment Center that oversees the Student Threat Assessment Protocol/Process for all school districts in the county. Measures and strategies specifically address the needs of students who are at high risk of suicide, including, but not limited to, students who are bereaved by suicide; students with disabilities, mental illness, or substance use disorders; students who are experiencing homelessness or who are in out-of-home settings such as foster care; and students who are lesbian, gay, bisexual, transgender, or questioning youth. (Optional) Include other Program, Protocols, Policies that exist for your school district that provide a high level of safety:

Naloxone for Schools Toolkit to Reverse Opioid Overdoses (Optional)

Recent increases in opioid overdose-related deaths span across adult and youth populations, indicating that schools should develop and implement additional safety nets to protect students and school staff. In addition to drug awareness and education programs, schools and districts in San Mateo County can implement the [Coalition for Safe Schools and Communities Naloxone Protocol for Schools](#) to reverse opioid overdoses on campus.

San Mateo County Office of Education is partnering with the State of California to offer the Naloxone Distribution Project (NDP) to San Mateo County schools and districts. The NDP aims to reduce opioid-overdose deaths through training and the provision of free Naloxone. All TK-12 public school districts, charter schools, and private schools may participate.

The Naloxone for Schools Toolkit is a set of protocols and resources detailing how to train staff, obtain, and administer Naloxone. San Mateo County Office of Education offers training on the Naloxone Toolkit to all school in San Mateo County.

Cathy Alderson has been trained in the use of Naloxone and the Naloxone Toolkit for Schools and is implementing the protocol in Pacifica School District Schools.

The Governing Board believes that regular school attendance is critical to student learning and that students who need to take medication prescribed or ordered for them by their authorized health care providers should be able to participate in the educational program.

Any medication prescribed for a student with a disability who is qualified to receive services under the Individuals with Disabilities Education Act or Section 504 of the Rehabilitation Act of 1973 shall be administered in accordance with the student's individualized education program or Section 504 services plan, as applicable.

For the administration of medication to other students during school or school-related activities, the Superintendent or designee shall develop protocols which shall include options for allowing parents/guardians to administer medication to their child at school, designate other individuals to do so on their behalf, and, with the student's authorized health care provider's approval, request the district's permission for the student to self-administer a medication or self-monitor and/or self-test for a medical condition. Such processes shall be implemented in a manner that preserves campus security, minimizes instructional interruptions, and promotes student safety and privacy.

The Superintendent or designee shall make epinephrine auto-injectors available at each school for providing emergency medical aid to any person suffering, or reasonably believed to be suffering, from an anaphylactic reaction. (Education Code 49414)

The Superintendent or designee shall make naloxone hydrochloride or another opioid antagonist available for emergency medical aid to any person suffering, or reasonably believed to be suffering, from an opioid overdose. (Education Code 49414.3)

Because of the conflict between state and federal law regarding the legality of medicinal cannabis, the Board prohibits the administration of medicinal cannabis to students on school grounds by parents/guardians or school personnel.

The Superintendent or designee shall collaborate with city and county emergency responders, including local public health

administrators, to design procedures or measures for addressing an emergency such as a public disaster or epidemic.

Administration of Medication by School Personnel

When allowed by law, medication prescribed to a student by an authorized health care provider may be administered by a school nurse or, when a school nurse or other medically licensed person is unavailable and the physician has authorized administration of medication by unlicensed personnel for a particular student, by other designated school personnel with appropriate training. School nurses and other designated school personnel shall administer medications to students in accordance with law, Board policy, administrative regulation, and, as applicable, the written statement provided by the student's parent/guardian and authorized health care provider. Such personnel shall be afforded appropriate liability protection.

The Superintendent or designee shall ensure that school personnel designated to administer any medication receive appropriate training and, as necessary, retraining from qualified medical personnel before any medication is administered. At a minimum, the training shall cover how and when such medication should be administered, the recognition of symptoms and treatment, emergency follow-up procedures, and the proper documentation and storage of medication. Such trained, unlicensed designated school personnel shall be supervised by, and provided with immediate communication access to, a school nurse, physician, or other appropriate individual.

The Superintendent or designee shall maintain documentation of the training and ongoing supervision, as well as annual written verification of competency of other designated school personnel.

Child Abuse Reporting Procedures (EC 35294.2 [a] [2]; PC 11166)

Teachers and support staff are mandated reporters and are required by the State of California to report any known or suspected instances of child abuse or neglect to the county child welfare department or to a local law enforcement agency. No proof of abuse or neglect is needed, only "reasonable suspicion" that child abuse or neglect may have occurred. Any concern about the possibility of child abuse or neglect must be reported. Investigations will be conducted by law enforcement and/or the county child welfare department to determine if abuse or neglect has occurred.

Mandated reporters must report to the County Child Welfare Department or to local law enforcement immediately by phone. A written report must then be sent within 36 hours by fax, or it may be sent by electronic submission, if a secure system has been made available for that purpose in the county. Written reports must be submitted on the California Suspected Child Abuse Report Form 8572. Telling a supervisor does not meet the mandated reporting requirement. If a decision is made that the supervisor will complete and submit the report to the county child welfare department or law enforcement agency, then one report is sufficient.

For mandated reporters, Penal Code 11172 (a) provides absolute immunity from state criminal or civil liability for reporting as required. This immunity applies even if the mandated reporter acquired the knowledge or reasonable suspicion of abuse or neglect outside of his or her professional capacity or scope of employment. However, mandated reporters will only have immunity under federal claims if the report was made in good faith.

Legally mandated reporters can be criminally liable for failing to report suspected abuse or neglect. The penalty for this misdemeanor is up to six months in jail and/or up to a \$1,000 fine. Mandated reporters can also be subject to a civil lawsuit and found liable for damages, especially if the child victim or another child is further victimized because of the failure to report.

Disaster Procedures (EC 35295-35297; GC 8607 and 3100)

Big Five: Immediate Action Emergency Response for Schools Protocol and Hazard Response Protocol

The San Mateo County Office of Education, in collaboration with Local Law Enforcement, County Government and Local Fire Departments created the Big Five Immediate Action Emergency Response for Schools Protocol for all Public, Private and Charter Schools in the County and update the protocol annually. The Big Five Immediate Action Response is a protocol that can be implemented in a variety of different emergency situations. The Protocol is consistent with the guidelines established in California's Standardized Emergency Management System and shall integrate the procedures of the National Emergency Management System. All employees of the District are Disaster Service Workers, as defined by the California Emergencies Services Act, and are subject to such disaster service activities as may be rightfully assigned to them and that all employees shall be required to subscribe to the oath or affirmation required by the Act.

When an emergency occurs, it is critical that staff members take immediate steps to protect themselves, their students, and other people on campus. With an Immediate Action Response, staff can follow specific directions without having to learn extensive protocols for each of several dozen different emergency situations. Staff, certificated and classified, will be given multiple opportunities annually to be trained on the Big Five School Emergency Guidelines Immediate Action Response and Hazards Response Protocols. These trainings specifically include training on the following:

- Earthquake preparedness, response, and recovery actions. Including Drop, Cover, and Hold On response protocols.
- Fire and Smoke, bomb threat or explosion, dangerous wildlife, bioterrorism and hazardous material spill or leak procedures which may result in a Shelter-In-Place
- Evacuation/Relocation procedures and Student Release to Family for Reunification procedures
- Secure Campus procedures for act of violence or danger of violence in the surrounding community
- Lockdown/Barricade procedures for a violent intruder on school premises

Staff members must learn and train on each Big Five Immediate Action Response and be prepared to perform assigned responsibilities. All students must be familiar with actions to take in the event that a Big Five response is implemented. It is highly recommended that school staff and students participate in the Big Five trauma-informed, developmentally appropriate emergency drills monthly. Table top exercises, walk-through drills, and social stories are examples of trauma-informed and developmentally appropriate training and drills to be used by school sites. Big Five signage and instructions are publicly displayed at all school sites.

Procedures to prepare for active shooters or other armed assailants

School site staff should participate in action-oriented Lockdown/ Barricade (active shooter) drills when students are not present. The use of Think on Your Feet Peet Book, which teaches young students what to do during a Lockdown/Barricade, Table-Top exercises or Walk-Through Drills are to be used with in lieu of violent intruder drills or simulations when students are present.

Immediate Action Responses

ACTION	DESCRIPTION
SHELTER IN PLACE	For environmental hazards: Go inside immediately.
DROP, COVER, & HOLD ON	For earthquakes and explosions: Protect from falling debris. Drop to the floor.
SECURE CAMPUS	For potential threats of violence nearby: Go inside the nearest building. Close and lock all doors. Remain inside until threat has passed.
LOCKDOWN/BARRICADE	For immediate threats of violence on premises: Go inside. Lock and barricade all doors. Cover windows and turn off lights. Remain quiet and alert.
EVACUATION	When conditions outside are safer than inside: Employ “Look, Listen, and Leave”. Exit the building and move to a safe location.

The Big Five Immediate Action Response Protocol for School Administrators and Hazard Response Protocol is found in the appendix of this plan.

Site Specific Emergency Response plans can be found in the Comprehensive School Safety Plan; Part 2: Internal Components, for each school site.

Include policy/date enacted via Board Policy PDF, Imbedded Text or Provide full URL to location on web:
